PREFACE

Crime in Illinois 1983 is the twelfth annual compilation of state crime statistics published by the Department of Law Enforcement since it became the central repository and custodian of such figures.

There are two significant omissions in *Crime in Illinois 1983*. Because of reporting problems, we are unable to publish statistics from the Sangamon County Sheriff's Office. Second, Chicago's figures are recorded in a separate section, as they were last year. Although the city is correcting the problems that led to last year's omission, the discrepancies between the 1982 and 1983 statistics are so great that they must be presented separately.

Crime in Illinois 1983 is one of the products of the Uniform Crime Reporting Program, which entails monthly submission of data by law enforcement agencies throughout the state. When correlated and analyzed, the statistics constitute a useful body of knowledge that significantly contributes to management and planning activities at local, state, and federal levels.

Since its inception, the quality and scope of the Uniform Crime Reporting Program have increased, thanks to the dedication and cooperation of each participating agency. I am confident the trend will continue.

With gratitude to all those who contributed to its publication, I present *Crime in Illinois 1983* to the people of Illinois.

INTRODUCTION

INTRODUCTION

THE ILLINOIS UNIFORM CRIME REPORTING PROGRAM

The Illinois Uniform Crime Reporting (I-UCR) Program was developed in 1971 and implemented on January 1, 1972. The I-UCR Program has evolved into a system intended to meet the needs of all reporting agencies. It is an incident-based reporting system designed to accomplish the following major goals:

- To provide needed administrative statistics for law enforcement agencies.
- To provide the legislature with information necessary to formulate effective laws which address the crime problem.
- To provide Illinois citizens with the most complete information on the nature and extent of crime.
- To include comprehensive data for researchers and planners.
- To adhere to the national program's standards.

Reporting crime statistics is mandated by chapter 38, section 206-8 of the *Illinois Revised Statutes:*

> 206-8. Crime Statistics.8. The Department (of Law Enforcement) shall be a central repository and custodian of crime statistics for the state and it shall have all power incident thereto to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all units of government.

Reporting agencies receive monthly and quarterly summaries of the reported criminal activity within their jurisdictions upon request. All offenses known to law enforcement agencies are reported monthly to the Crime Studies Section of the Bureau of Identification. Participating jurisdictions include villages, municipalities, counties, colleges, universities, park districts, railroads, and hospitals throughout Illinois. Agencies may also submit service code and local ordinance data in order to provide law enforcement administrators with information for use in planning and research, determining and utilizing manpower, budgeting, and developing and evaluating crime prevention programs.

In 1983, there were 950 law enforcement agencies in Illinois, 732 of which reported crime statistics directly to the Bureau of Identification. The remaining agencies reported their crime statistics through an intermediary agency (sheriff's office, police department, etc.). Agencies submit their data through the use of source documents, printouts, magnetic tape, or via remote on-line terminals.

CONSIDERATIONS FOR INTERPRETATION

When comparing the crime statistics of one agency with another, many factors should be taken into consideration before conclusions are made. Some of the conditions affecting the type and volume of crime are:

- Density and size of the community population and the metropolitan area of which it is a part.
- Composition of the population with reference particularly to age, sex, and race.
- Economic status and mores of the population.
- Stability of population, including commuters, seasonal workers, and other transient types.
- Climate, including seasonal weather conditions.
- Educational, recreational, and religious characteristics.
- Effective strength of the police force.
- Standards of appointments to the local police force.
- Policies of local officials.
- Attitudes and policies of the courts and corrections.
- Attitudes of the public toward law enforcement problems.
- Administrative and investigative efficiency of law enforcement, including the degree of adherence of crime reporting and standards.
- Organization and cooperation of adjoining and overlapping police jurisdictions.[1]

THE CRIME INDEX

The Crime Index is the total number of index offenses occurring within a given jurisdiction during a specified period of time. It is used to indicate the amount and extent of serious crimes as defined by the International Association of Chiefs of Police Committee on Uniform Crime Reports. The Crime Index consists of violent crimes — murder and voluntary manslaughter; forcible rape; robbery; and aggravated assault, aggravated battery, and attempted murder, and of property crimes — burglary, theft, motor vehicle theft, and arson.

The index crimes used by the I-UCR Program translate into the national program's eight Crime Index offenses as:

Violent Crimes

Murder and voluntary manslaughter — The willful killing of a person or the death of a person caused by gross negligence of an individual other than the victim.

Forcible rape — The carnal knowledge of a female, forcibly and against her will; includes attempted rape.

Robbery — The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence; includes attempted robbery.

Aggravated assault — The intentional causing of serious bodily harm or the intentional attempt or threat of serious bodily injury or death; includes aggravated battery and attempted murder.

Property Crimes

Burglary — The unlawful entry of a structure to commit a felony or theft; includes attempted burglary.

Theft — The unlawful taking or stealing of property or articles without the use of force, violence, or fraud; includes burglary from motor vehicle and attempts.

Motor vehicle theft — The unlawful taking or stealing of a motor vehicle; includes attempted motor vehicle theft.

Arson — The willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building or any building, motor vehicle, aircraft, or personal property of another.

THE CRIME RATE

The crime rate indicates the volume of crime occurring within a given population. It is [illegible]ned as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

$$\frac{\text{Crime Index} \times 100{,}000}{\text{jurisdictional population}} = \text{crime rate}$$

The jurisdictional population can be that of a city, town, village, state, or nation.

Because of agency adjustments and late submissions, 1982 figures reflected in this publication are not comparable with those figures published in *Crime in Illinois 1982*.

Due to reporting problems, Chicago Police Department and Sangamon County Sheriff's Office statistics are not included in the totals presented in *Crime in Illinois 1983*. Chicago Police Department statistics are published separately in section VI.

MURDER AND VOLUNTARY MANSLAUGHTER

The index offenses of murder and voluntary manslaughter are merged in accordance with the national program definition and are based solely on police investigation.

Murder

38 § 9-1.

(a) A person who kills an individual without lawful justification commits murder if, in performing the acts which cause the death:

(1) He either intends to kill or do great bodily harm to that individual or another, or knows that such acts will cause death to that individual or another; or

(2) He knows that such acts create a strong probability of death or great bodily harm to that individual or another; or

(3) He is attempting or committing a forcible felony other than voluntary manslaughter.

Voluntary manslaughter

38 § 9-2.

(a) A person who kills an individual without lawful justification commits voluntary manslaughter if at the time of the killing he is acting under a sudden and intense passion resulting from serious provocation by:

(1) The individual killed; or

(2) Another whom the offender endeavors to kill, but he negligently or accidentally causes the death of the individual killed.

Serious provocation is conduct sufficient to excite an intense passion in a reasonable person.

(b) A person who intentionally or knowingly kills an individual commits voluntary manslaughter if at the time of killing he believes the circumstances to be such that if they existed, would justify or exonerate the killing under the principles stated in chapter 38, article 7, ***Illinois Revised Statutes,*** *but his belief is unreasonable.*

Burglary from motor vehicle is categorized as theft on the national level in the index crime of theft/larceny. In order to be consistent with the national program, the Illinois statute for burglary is divided and burglary from motor vehicle data are included in the theft category.

ARSON

The I-UCR Program includes arson—explosive device, arson—incendiary device, and attempted arson in the data presented under the heading of arson, but does not include possession of explosive or incendiary devices.

Arson

38 § 20-1.

A person commits arson when, by means of fire or explosive, he knowingly:

(a) Damages any real property, or any personal property having a value of $150 or more, of another without his consent; or

(b) With intent to defraud an insurer, damages any property or any personal property having a value of $150 or more.

Property "of another" means a building or other property, whether real or personal, in which a person other than the offender has an interest which the offender has no authority to defeat or impair, even though the offender may also have an interest in the building or property.

Offenses Actually Occurred — offenses police pursued through investigation to solution; the total Offenses Known to Police minus Unfounded Offenses and Offenses Referred to Responsible Jurisdiction; used to compile the Crime Index.

Total Offenses Cleared — Cleared by Arrest-Adult, Cleared by Arrest-Juvenile, Failed to File Complaint or Prosecute-Adult, Failed to File Complaint or Prosecute-Juvenile, Other Exceptional Clearances-Adult, and Other Exceptional Clearances-Juvenile; administratively closed cases are not considered clearances.

CRIME INDEX/CRIME RATE DATA

CRIME INDEX/CRIME RATE DATA

Caution should be exercised when reviewing and using these data. The many social factors related to crime and a community's residential population — used to calculate the crime rate — must be considered when making statistical comparisons. A community may have a small residential population but a large moving population because of a substantial number of manufacturers, motels, etc., within its jurisdiction. The large moving population attracts criminal behavior that occurs within the small jurisdiction and must be reported by the law enforcement agency. The crime rate calculation does not compensate for a moving population. The statistics can make it appear that crimes are committed by community residents when this is not necessarily true.

STANDARD METROPOLITAN STATISTICAL AREAS

A Standard Metropolitan Statistical Area (SMSA) includes a city of more than 50,000 and the county in which the city is located, plus other cities which exhibit strong ties with the city. The county sheriff's office is also included for crime reporting purposes.* Two of the SMSAs overlap with Iowa and Missouri. Areas outside of Illinois that are included in an SMSA are deleted from the statistics presented here.

SMSA Summary

The estimated population of core cities and suburban areas — the two regions that comprise the SMSAs — accounts for 74.0 percent of the state population. The total SMSA index crimes account for 84.3 percent of the Illinois Crime Index.

SMSA Core Summary

A core city is within an SMSA and has a population of 50,000 or more inhabitants. The "twin central cities" of certain SMSAs have combined populations of 50,000 or more inhabitants and are considered together as a core city.*

The inhabitants of core cities represent 19.4 percent of the state's population and 26.2 percent of the SMSAs' population. Core cities account for 32.3 percent of the Illinois index crimes and 38.3 percent of the total SMSA index crimes.

SMSA Suburban Summary

A suburban area consists of cities and towns with 50,000 or less population, including the counties which are within the SMSA. The county sheriff's office is included in the suburban area.*

Suburban areas lie outside core cities and are bounded by the SMSA lines. The inhabitants of suburban areas represent 54.7 percent of the state's population and 73.8 percent of the SMSAs' population. Suburban areas account for 52.0 percent of the Illinois index crimes and 61.7 percent of the total SMSA index crimes.

CHICAGO POLICE DEPARTMENT

VIOLENT CRIMES
PROPERTY CRIMES

INTRODUCTION

Chicago Police Department's crime data for 1983 are presented separately for the second consecutive year due to reporting problems which surfaced in late 1982. Chicago Police Department auditors conducted an internal audit in early 1983 which concluded that 40.7 percent of the 2,386 cases studied were incorrectly classified as unfounded during 1982. Serious concern arose from these findings relative to the reliability of Chicago Police Department's data and the impact on statewide crime trends. Chicago Police Department's data are presented separately in order to minimize the distortion of statewide crime trends.

It is noteworthy that the Chicago Police Department completely revised and implemented new reporting procedures during 1983 which have significantly enhanced the integrity and reliability of Chicago's crime data. The revised reporting practices have resulted in dramatic increases in all crime index categories for 1983. However, caution is advised in any analysis of these data as much of the increase may be attributed to a more creditable crime reporting system.

SECTION VII

LAW ENFORCEMENT OFFICERS KILLED

During 1983, four Illinois law enforcement officers were killed by felonious acts.

January

Two officers with the Chicago Police Department responded to a burglary in progress in a three-flat building. They were soon joined by two other members of the 2nd District Tactical Unit. One of the original responding officers and another officer entered the building while their partners positioned themselves outside a window. Darkness, snow, and an opaque material covering the window made visibility difficult for the officers stationed outside. When confronted by the officers inside, the two offenders attempted to escape by smashing the window and leaping outside. The two officers inside fired shots, wounding an offender. The two officers outside, believing they were being fired upon by a third offender, each fired two shots into the room. Tragically, one of the officers in the room was fatally shot in the head and the other officer was wounded in the arm. The offenders, one of whom was a convicted rapist, were apprehended and subsequently charged with murder, robbery, and home invasion. An automatic pistol, a rifle, and a shotgun were confiscated from the building.

June

A Chicago Police Department officer walked to his police vehicle after attending roll call. The officer was walking from the south curb toward the north curb when a car suddenly swerved across both lanes of traffic and struck him, carrying the officer's body about 50 feet as the offender attempted to leave the scene. The car subsequently crashed into two parked cars. The offender crawled out the driver's side window and fell to the pavement. The female offender was taken into custody by other officers arriving at the scene. A citizen stated that the officer was attempting to push the citizen out of the path of the oncoming vehicle when the officer was fatally injured. The offender later admitted she had taken PCP and was intoxicated from the substance.

July

Two officers with the Will County Auxiliary Sheriff's Department were shot in Homer Township at approximately 3:15 a.m. on July 26, 1983. While on patrol, the officers — a 22-year-old deputy and a 50-year-old sergeant — were stopped by a male who claimed he had car trouble. The officers were fired upon as soon as they exited their vehicle. Struck five times in the back and side, the deputy was pronounced dead at the scene. Although able to radio for assistance, his partner suffered face and hip wounds which resulted in his death on August 17, 1983. Both were shot with .38-caliber and .357-magnum handguns, and the .357-magnum service weapon of each was taken. It appears that the officers had unknowingly arrived at the location of a double murder and were attacked with no provocation. Shortly after the two officers were slain, another couple drove past the scene and also were attacked. Both were wounded, the male fatally. The assailants, possibly in their late 20s or 30s, are still at large. The victim sergeant had three years of law enforcement service; his partner, only two months.

LAW ENFORCEMENT EMPLOYMENT INFORMATION

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{number of employees} \times 100{,}000}{\text{jurisdictional population}} = \text{employment rate}$$

Example:
A department with 60 employees in a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants.

$$\frac{60 \times 1{,}000}{51{,}000} = 1.2 \text{ per } 1{,}000 \text{ inhabitants}$$

Law enforcement employment rates should not be correlated with index crimes; nonindex offenses and the many services performed by the typical law enforcement officer amount to over 80 percent of the officer's workload, the details of which usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

The 25,252 part- and full-time sworn officers in 1983 account for 80.8 percent of the police department work force. The 1983 employment rate for sworn employees of police departments is 2.8 per 1,000 inhabitants. The 5,988 civilian employees comprise 19.2 percent of the police department work force, with an employment rate of .7 per 1,000 inhabitants.

The 3,133 part- and full-time sworn officers in 1983 account for 69.2 percent of the sheriffs' offices work force. The 1983 employment rate for sworn employees of sheriffs' offices is 1.3 per 1,000 inhabitants. The 1,396 civilian employees comprise 30.8 percent of the sheriffs' offices work force, with an employment rate of .6 per 1,000 inhabitants.
